WELCOME YOU JOIN US!

General manager's speech :

Welcome your attention and support--- Ningbo Deying Precision Machinery Co.,Ltd.

The development of the company could not live without your attention . support and cooperation.

Looking back for the over ten-year' development, I have mixed feelings. Through the global Subprime Crisis, the Financial Crisis and the industry reshuffle, we are unceasingly getting progress and challenge yourself. With the market changing, we constantly adjust the business strategy. Enhance the quality and brand. Develop the market of network.

Along with the rising of costs and the lack of human resources, we strive to transformation and upgrading. Recent years, We have invested much capital in accomplishing mechanization and automation. Have the cooperation with the professional equipment manufacturers. Actively implement the machine substitution strategy. Through the scale and specialized production, the company actively control the cost and give the customers' profit.

The chance is given to those who have prepared. We full of hope and confidence in our future. We would respect employees and reflect the value of customers. Adhere to the people-oriented. Respect for the customer. Honest for the business. Win a better development space. Realize the situation of win-win with customers. I firmly believe that we would create a brightly future under your attention and support.
